Memorandum

In re: BANK NOTES FOR:

The Netherlands and
The Netherlands East Indies

On February 8th Dr. R.E. Smits, Netherlands Indies Commissioner and Manager of De Javasche Bank, and Mr. A. Philips, Adviser of the Treasury Department of the Royal Netherlands Government, called on our President, Mr. A.L. Schomp, to discuss an issue of notes for The Netherlands, and an issue for The Netherlands Indies.

The following points and details for the respective issues are noted for record purposes:

THE NETHERLANDS INDIES

CLASS OF WORK One steel printing on the face and one steel printing on the back; no tint (color work) on the face or back.

QUANTITIES AND DENOMINATIONS 17,060,000 notes, divided among 5 denominations, with a total face value of f.100,000,000.

SIZES The notes to be in two sizes; the two lowest denominations in a small size, and the three highest denominations in a larger size; the latter approximately the size of the U.S. notes. The actual sizes to be left to the suggestion of the Company, in order to achieve the most economical manufacture and the quickest deliveries.

VIGNETTES A portrait vignette of H. M. the Queen of the Netherlands on the face, the photograph of which is on the way by Courier.

Mr. Smits said he would like to have three small vignettes on the back of all denominations, consisting of the three branches of the armed forces, viz: the Navy, Infantry and the Air Force, photographs of which subjects he left with us. Mr. Schomp explained that this would entail additional special engravings, which would necessitate a longer time for the preparation of the notes and thus substantially delay deliveries, having previously mentioned that about three months would be required to engrave the portrait of the Queen. To expedite the work he suggested that the Royal coat of arms or some of our stock vignettes be used for the backs.

NUMBERING Double numbering on one side only, face or back. Two prefix letters to the numbers.

TEXTS. Title, denomination in words and figures on face. No date. Denomination in figures and penalty clause in 4 languages on back. The 4 languages on the back as on the 5 Gulden note of the De Javasche Bank, handed to us by Mr. Smits.

February 9, 1943.

SIGNATURES Two signatures and signature titles on the face.

DELIVERIES Mr. Smits explained that partial deliveries could be made. He expressed his desire that deliveries should commence within four months.

PAPER The notes to be printed on our standard bank note paper, with no watermark.

THE NETHERLANDS

CLASS OF WORK One steel printing on the face, one steel printing on the back. No tint (color work) on the face or back.

QUANTITIES AND DENOMINATIONS 52,950,000 notes, divided among 7 denominations, with a total face value of f.100,000,000.

SIZES Same as for The Netherlands Indies, except that the three lowest denominations would be in the small size and the four highest denominations in the larger size.

VIGNETTES For the face the same portrait vignette of H. M. the Queen of the Netherlands, as for the Netherlands Indies notes, but placed in a different position, so as to more readily distinguish the notes from those of the Netherlands Indies.

Mr. Philips mentioned that as yet no subjects had been decided upon for the back vignettes. Mr. Schomp suggested that in order to expedite the work and deliveries use be made of some of our stock vignettes.

NUMBERING Same as for the Netherlands Indies notes.

TEXTS. Title, denominations, in words and figures on face. Title, denomination in figures on back. Penalty clause on the back.

SIGNATURES One signature and signature title on the face.

DELIVERIES Mr. Philips explained that partial deliveries could be made.

PAPER. Same as for the Netherlands Indies notes.

Mr. Schomp told his visitors that he would give this matter his close and personal attention and submit to them his recommendations and proposals during the next few days. He expressed his ardent desire to cooperate with them in every possible way, so as to meet their needs.

Dear Mr. Toller:

I had a meeting with the Netherlands gentlemen last Saturday and they handed me a tentative schedule for the desired order of production, copy herewith. I am passing this along to you to get your reaction as to the possibilities. They explained that of course this is susceptible to modification.

A few days earlier I had told them we doubted if we could take care of more than two and possibly three denominations simultaneously. You will note they have indicated five denominations a month.

As the matter now stands, we shall probably have to engrave three small vignettes to go on the backs of the Indies notes. I explained to them this would delay the starting time of these notes by approximately three weeks. This was pleasing to the Netherlands representative because that would enable us to get away to an earlier start for his issue.

Further details which were more or less settled upon were that the sizes for the 10 Gulder denomination and up would be about the same as the Canadian notes. Those of the lower valuations are to be slightly smaller, but in both instances I think you will be permitted to print 24-on, which will step up your production schedule somewhat.

The backs of the Netherlands issue are all to be in the color of orange and the backs of the Indies notes are to be in green.

colors for the
The/faces of both issues are yet to be determined.

The Netherlands design will be the Queen's portrait on the face and the coat of arms on the back of all denominations. At present the idea for the Indies is to have the portrait on the face and the three small vignettes grouped on the back.

You will understand that all of this is preliminary and susceptible to change.

You will also note that they have included the 1/2 Gulder denomination, but have placed it at the end and on that basis this should be all right. However, this is also subject to further consideration.

I would appreciate it if you will be good enough to give the matter immediate consideration so that by telephone you may let me know if you can meet their proposed schedule for the various denominations.

I am aware that you are fully dependent upon how quickly we can produce plates. However, Mr. Reese assures me that they will come through on the basis that has been outlined to you. He also tells me he believes he can work in the three small vignettes while working on the Queen's portrait, but I have not passed this benefit along to the customer.

Yours very truly,

Dear Sir-

Enclosed please find four lays for (Nederland) and (Nederlandsch -
Indie) Bank Notes.

These lays are duplicates of two sizes and if they meet with your
approval will you kindly OK one of each and return them to us.

Mr. A. Reece, Manager of the Engraving Division, has promised dies
in six weeks after model approval and plates in one week after die
approvals. Will you kindly let us know what you intend to do in
the engraving and transferring of the plates and what denominations
you will require first.

Very truly yours,

February 18th, 1943.

Dear Mr. Schomp:

I acknowledge receipt of your letter of the 15th instant together with tentative delivery schedule for the prospective order of Netherlands Notes and as advised you over the telephone yesterday, barring unforeseen delays beyond our control, we see no reason why we cannot carry out these deliveries. All details thus far are quite clear to us.

When the order has been finally closed, you will probably then want to discuss with us the various details with respect to the printing, finishing and delivery arrangements so we will have someone visit New York for this purpose. It is understood that the Bronx will prepare all the dies and send us rolls for the plates to be laid down at Ottawa. In this connection it would be our idea to have you lay down the face and back plates for the Netherlands 1 and 25 gulder denominations and the Indies 5 and 10 gulder denominations and we can handle the plates for all the other denominations of both issues here.

We would plan to commence with laying down plates for the 2-1/2 and 10 Netherlands gulder denominations and estimate we could commence delivery in six weeks from receipt of these rolls from you and one month from receipt of the plates from you for the other three denominations above referred to and ship a total of 6,000,000 notes during the first month comprising all five denominations. This promise, however, is subject to our being able to obtain a priority from the Oil Controller to increase our oil quota for this year as well as a priority from the Lumber Controller with respect to the wood required for the shipping boxes. Therefore, we would like to know as soon as possible whether or not the 30,000,000 - 1/2 gulder denomination will be finally included in the order.

The Howard Smith Paper Mills have informed us that they can furnish the paper with a content of 50% Howard Smith flax and 50% unbleached cotton, as per sample sheet enclosed to which is attached a report on the tests made on this paper. While the enclosed sample carries green planchettes, it is clearly understood that you would require multi-colour planchettes and we are, therefore, also enclosing a sample sheet of Howard Smith Standard Multi-colour Bank Note which we use exclusively for notes of the commercial banks. Green planchettes are used only in the paper supplied for Bank of Canada notes. As the Howard Smith Mills are very busy at the present time, it would be advisable for us to place the order for the paper as early as possible.

Dear Mr. Schomp:

The Netherlands and The Netherlands East Indies Notes

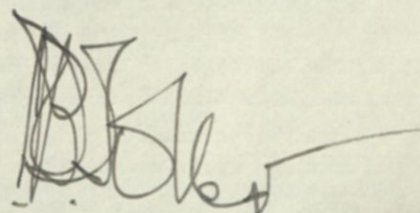

Confirming telephone conversation of today, I understand it will be satisfactory for us to place the order with the Howard Smith Paper Mills for the necessary Bank Note Paper to take care of the preparation of 39,000,000 Notes and we are arranging accordingly. It is understood that the paper will carry multi-colour planchettes (other than Green) and will contain 50% flax and 50% cotton content, similar in quality to the sample sheet sent you with my letter of the 18th instant. We will also advise the Smith people that there is a possibility of our requiring a further supply of paper in the event of the order coming through for the remaining 30,000,000 - 1/2 Gulder Notes. 40.010 (4027)

It is further understood that these Notes are to be printed wet and when completed should measure approximately 6" x 2-7/8" and 5" x 2-7/8" respectively. With your approval, we plan to follow exactly the same lay as for the Bank of Canada Notes which means that allowing for the average shrinkage of from 1/8" to 3/16" the long way of the Note, it has been our experience that the average size of the completed Notes when delivered will measure 5-15/16" x 2-7/8" which is the same as the Bank of Canada Notes and the size of the other Notes will run approximately 5" x 2-7/8". In other words, the respective Notes should not exceed 6" and 5" in length.

Herewith I enclose copy of our letter of today to the Bronx Plant so that you will be fully conversant with the situation.

Yours faithfully,

One

Dear Sir:

The Netherlands and The Netherlands East Indies Notes

✓ We acknowledge receipt of your letter of the 18th instant together with two lays for the (Nederland) and two lays for the (Nederlandsch-Indie) Bank Notes as advised.

According to our understanding, these Notes are to be printed wet and when completed should measure approximately 6" x 2-7/8" and 5" x 2-7/8" respectively. Having in mind the shrinkage of the paper, however, it would not appear possible from your lays to deliver Notes to the desired sizes. The work size of the Bank of Canada Notes, for example, is 5-28/32" x 2-19/32" and allowing for the average shrinkage of from 1/8" to 3/16" the long way of the Note, our experience has been that the completed Notes nearly always are under 6" with the result that the average size when delivered is approximately 5-15/16" x 2-7/8" instead of 6" x 2-7/8" as desired. Therefore, it seems to us, in order to be able to deliver these Notes as close as possible to the sizes specified, that the work sizes should measure respectively 5-28/32" x 2-19/32" and 4-30/32" x 2-19/32" and understand from our telephone conversation of today with Mr. Schomp and Mr. H. R. Treadwell that you will follow these work sizes in preparing the models. These Notes should then measure the same as those of the Bank of Canada.

We have noted the promise of your Engraving Division with regard to the completion of the dies and plates, which is very satisfactory. As we understand from Mr. Schomp that there is a possibility of the Government revising the schedule sent us a few days ago with respect to deliveries of certain denominations, it would seem advisable to await final decision before making arrangements as to the plates we will lay down here and those you will lay down at the Bronx. When you are ready to discuss the matter, we will have someone visit the Bronx Plant for the purpose of arranging the various details.

Under separate Special Delivery Mail, we send you one lay each of the (Nederland) and (Nederlandsch-Indie) Notes which we have prepared and from which you will see we have indicated thereon the suggested sizes. We are also returning one set of your lays and have retained the other set here for purpose of record.

Yours very truly,

Dear Mr. Toller:

Referring to yours of the 23rd, as far as I can see your understanding of the orders from the Netherlands and the Netherlands East Indies are correct, except that you have ordered paper to take care of 39,000,000 notes and the quantity should be 40,010,000. There is also the possibility that an additional order will be placed for 30,000,000 of the 1/2 Gulder notes in the near future.

I am enclosing herewith a revised schedule for deliveries as was handed to me by the Netherlands Government officials. Naturally we are anxious to meet their wishes.

We are looking forward to Mr. Cotter's visit and it is my understanding that he will go directly to the Bronx Plant on Monday morning, March 1st. I hope that we shall have cleared up all details by that time with our patrons and thus be able to clear with Mr. Cotter all of our internal questions.

Dear Sir: The Netherlands and The Netherlands East Indies Notes

This is to acknowledge your letter of the 23rd instant, and also the various lays referred to, which were received under separate cover via special delivery mail.

From your letter we have noticed the understanding that was arrived at with Mr. Schomp, to the effect that you are to make allowance in the engraving dimensions to take care of the average paper shrinkage from wet printing. The dimensions given by you to take care of such allowances for shrinkage have been conveyed to Mr. Reece, and at this time we wish to confirm our telephone conversation of this morning, advising you that inasmuch as we never make such allowances for shrinkage on any of our jobs, and the fact that we had no information of our own as to what allowance is correct, we will have to assume that your information in this regard is accurate.

We also wish to advise you that it is Mr. Schomp's wish that the overall sizes when completed should not exceed 6" x 2-7/8" and 5" x 2-7/8" respectively, but that it is understood that slight variations less than these overall sizes will be acceptable.

Yours very truly,

Manager.

Dear Mr. Schomp:

✓ I have received your letter of the 25th instant together with a revised schedule for deliveries of the Netherlands and Netherlands East Indies Notes, which will have our careful attention.

✓ I am sorry that my letter of the 23rd was incorrect in stating that we had ordered paper to take care of 39,000,000 Notes. Upon checking the matter, however, I am glad to say that we actually ordered sufficient paper for 40,010,000 Notes plus the necessary excess to cover approximately 5% spoilage. In the event of the Government also ordering the 30,000,000 - 1/2 Gulder Notes, we are advised by the paper manufacturers that they can take care of us.

Mr. Cotter has arranged to leave for New York tomorrow and will go directly to the Bronx Plant on the morning of March 1st. It will be very satisfactory if you are able to clear with Mr. Cotter all the various details concerning this order.

Yours faithfully,

Pursuant to your request, option is granted to permit you, upon advice to us at any time prior to May 1, 1943, to cancel the item of 30,000,000 one-half Gulden denomination, without charge. In such an event, however, our price for furnishing 22,950,000 notes of the remaining denominations, viz: 1, 2.50, 10, 25, 50 and 100 Gulden is \$230,000.00 U.S. Currency, F.O.B. New York.

The estimated shipping and insurance expenses on 22,950,000 would be about \$35,000.00

TIME OF EXECUTION: Deliveries to be effected as soon as possible in conjunction with the order for The Netherlands-Indies Government, to be concurrently executed. Approximately 3 months should be allowed for the preparation of the necessary engravings.

We have given you a tentative printing schedule for the combined orders, namely, The Netherlands and Netherlands-Indies, of approximately 6,000,000 notes within one month after completion of engravings, to be continued thereafter at the rate of approximately 8,000,000 notes per month.

PACKING The notes are to be cut single and to be securely wrapped and packed in metal lined wooden cases for export.

SHIPPING INSTRUCTIONS Instructions for export shipment to be furnished by you.

CUSTODY OF ENGRAVINGS It is understood and accepted that the engravings from which the above notes are printed shall always remain in the custody of the American Bank Note Company, or they shall be destroyed in our premises upon official instructions and, if you desire, in the presence of your duly authorized representative.

It is further understood that the special engravings prepared for this issue will be used by us only upon receipt of proper authority from the

Model schedule 21561

The face models prepared for the 2 1/2 and 25 Gulden notes have been accepted. You will therefore proceed with the preparation of the working models for the remaining denominations, namely .50, 1, 10, 50 and 100 Gulden.

The color for the face of the .50 note is to be P3 Purple. The color for the back is to be 64 orange.

Please rush these working models.

The acceptance of the models for the backs is pending your study and recommendation for the face treatment, for filling in some of the blank spaces surrounding the denominational figures on either side of the coat of arms.

As Mr. Phillips wants us to submit to him specimens of the colors in which the notes will be printed, for this purpose please send us as soon as possible die proofs of a specimen bank note in the following colors:

P3 Purple; S0 86 Rose; 1 Green; 9 Blue; 55 3/4 Olive, 5 Olive, P20 Brown, Black; 64 Orange and 17 Orange.

The models for the 2.50 and 25 Gulden notes will be returned to you as soon as we get them back from Mr. Phillips.

MAR 26 1943

March 5, 1943.

Mr. A. Philips,
Adviser of the Treasury Department
of the Royal Netherlands,
11 Broadway, Room 668,
New York City, N.Y.

Dear Sir:

Supplementing our letter to you of March 1st, in which we submitted
for your consideration our offer for furnishing an issue of notes for the
Netherlands, we beg to record hereby our understanding of the method you wish
us to follow in banding, wrapping and packing the notes.

In accordance with the packing schedule which you handed to us, we
are to make up, from the first lots of notes printed, 500 packages, each contain-
ing 14,475 notes with a total face value of 50,000 Gulden, distributed as follows:

25 notes of 100 Gulden	- 2,500 Gulden
50 " " 50 "	- 2,500 "
400 " " 25 "	- 10,000 "
2,000 " " 10 "	- 20,000 "
2,000 " " 2.50 "	- 5,000 "
10,000 " " 1 "	- 10,000 "
<u>14,475 Notes</u>	<u>Total 50,000 Gulden</u>

In the event that no notes of 100 Gulden have been completed during
the first month of production to enable us to make up 300 standard packages of
14,475 notes as set forth above, then we shall pack 50 notes of 50 Gulden, or say
14,500 notes to a package.

Mr. A. Philips
Adviser of the Treasury Department
of the Royal Netherlands

-2-

March 5, 1943.

The notes are to be banded in lots of 100 notes with a narrow band, and five such lots banded together in a larger band, or say 500 notes each, with the bands indicating the denominations but no numbers; with the exception that the first 12,500 notes of 100 Gulden will be banded in lots of 25 notes, the first 25,000 notes of 50 Gulden in lots of 50 notes and the first 200,000 notes of 25 Gulden in lots of 400 notes, in order to provide the necessary quantity of notes for the standard packages mentioned above.

The necessary lots of banded notes to make up a package will then be wrapped in heavy wrapping paper, with a label on the wrapper indicating the quantity of notes, denomination and numbers of the notes; the package then again wrapped in waterproof paper for airplane transportation, with a duplicate label on the outside wrapper.

Four packages, or say 57,900 notes, to be packed in metal lined cases for export.

After completing the 500 packages of 14,475 notes made up of six denominations, delivery is to be made in packages containing 10,000 notes only of one denomination each, and 5 packages, or say 50,000 notes, packed in metal lined cases.

We are revising our figures of the estimated shipping and insurance expenses which we gave you in our letter of the 1st instant, and we will send you a breakdown thereof.

With regard to the numbering of the notes, we confirm that in addition to omitting the letters "I" and "O" we will also omit "Q" as a prefix letter.

Mr. A. Philips
Adviser of the Treasury Department
of the Royal Netherlands

-3-

March 5, 1943.

The numbering of the 1 Gulden notes, therefore, will now be:

LA000001 to LA1000000
LB000001 to LB1000000
to
LR000001 to LR1000000
(omitting letters "I", "O" and "Q")

and for the 50 ct. notes:

MA000001 to MA1000000
MB000001 to MB1000000
to
MZ000001 to MZ1000000
(omitting letters "I", "O" and "Q")

NA000001 to NA1000000
NB000001 to NB1000000
to
NG000001 to NG1000000

Confirming our conversation of this morning, we will alter the decree number on the face of the models to read "No.2" instead of "No.D2", the balance of this part of the note remaining the same as in the text given us in your letter of February 23rd, namely: "Uitgegeven krachtens het Koninklijk Besluit van 4 Februari 1943, No.2".

*Mr. A. Philips telephoned March 5
that we were to omit word "het"*

In accordance with your wishes we have instructed our plant to prepare for you a set of specimens of the face colors in which these notes will be printed. For the color of the backs we will submit to you, for your selection, two shades of orange.

Trusting that we have interpreted your wishes correctly relative to the above-mentioned details

We are,
Yours very truly,

The paper to be used on these orders is to be the same basic weight as you are furnishing on the Bank of Canada Notes and to contain multicolored scattered planchettes.

The question of packing and shipping is being reviewed with Mr. J. Cotter and when a final decision has been arrived at as to what is desired, it will be made a part of the orders.

We will await your advice in regard to the number of plates that you wish us to transfer in New York and forward to you.

We wish to confirm our understanding that you will be able to start deliveries in six weeks after receipt of rolls or five weeks after receipt of plates, delivering 6,000,000 Notes the first month and 8,000,000 per month thereafter. This promise of delivery covers both the Nederlandsch - Indie and the Netherland orders.

We will endeavor to keep you advised as quickly as possible of any changes that might occur while the orders are in progress.

Very truly yours,

Mr. A.L. Schomp, President

New York City

Dear Mr. Schomp,

The Netherlands
The Netherlands Indies

Referring to our recent conversations, we give you herewith our views on the inspection clause in our contracts with you.

Although we fully realize that our Government could only obtain complete certainty with regard to the number of notes actually produced and delivered if it were possible to have at least one representative in the plant all the time (and, under present conditions, this is not possible), we feel that we would not be justified to sign a contract that did not at least give our Government an opportunity to satisfy itself with respect to the adequacy of your safeguards against unauthorized use of the plates in your plant and the notes printed from them. It was for this reason that we asked you to insert in the contract a clause giving us the right to inspect the work being done and to see that the rules were strictly adhered to.

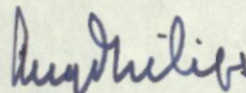

In our latest talk you told us that the words "by appointment" in the relevant clause were used in order to make it clear that our representative would have to be properly introduced to your plant Manager and provided with a pass before being allowed to enter the premises, and that visits would have to be made at such hours as would not unduly interfere with the orderly processes of printing, checking, etc. We appreciate the reasons which led you to make these reservations and we already indicated to you that they were quite in line with our ideas. However, we pointed out that the object of the whole clause would be defeated if the requirements of a previous appointment were interpreted to mean that a visit could never be made unless it had been announced a long time ahead.

We hope to be able to introduce to you in the near future a gentleman who is a resident of Ottawa and who would be in a position to call at your plant in that town from time to time. If this gentleman is willing to accept the task, you will oblige us by introducing him in turn to the Manager of your plant. We trust the arrangement outlined here will be mutually satisfactory, and remain, dear Mr. Schomp,

Faithfully yours,

Dear Mr. Schomp,

I confirm our telephone conversation of this morning, in the course of which you told me that there would be no objection to our amending the arrangements outlined in your letter of March 1 to the effect that, apart from the letter of credit for \$ 75.000 to cover freight and insurance, a letter of credit will be issued in an amount of \$ 230.000. The latter letter of credit will cover the cost of printing 22.950.000 currency notes; the terms contained in your said letter will be incorporated as far as they have a bearing on the way in which payment is to be made. In case my Government does not exercise its option to reduce the size of its order, the amount of the credit will be raised from \$ 230.000 to \$ 500.000.

If this arrangement is satisfactory to you the contract need not be revised; in that case please sign the accompanying copy of this letter as evidence of your agreement. Should you prefer to embody the final arrangement in a new letter I am, of course, quite agreeable to that also.

Faithfully yours,

W. J. Philips

Mr. A. A. Wittnebel,
Manager, American Bank Note Company,
Hunts Point,

Dear Sir:

re Nederland (The Netherlands)

We acknowledge receipt of your letter of the 5th instant together with order sheets in duplicate covering the preparation of the undermentioned bank notes, namely:

F 11471	-	15,000,000	-	1	Gulden
F 11472	-	4,000,000	-	2.50	Gulden
F 11473	-	3,000,000	-	10	Gulden
F 11474	-	800,000	-	25	Gulden
F 11475	-	100,000	-	50	Gulden
F 11476	-	50,000	-	100	Gulden
		22,950,000			

It is clearly understood that the paper for the above notes is to be of the same basic weight as used for the Bank of Canada notes, but to carry multi-coloured scattered planchettes.

We have discussed with Mr. Cotter the matter of packing and shipping and it is understood that if we can obtain the metal here for the lining of the boxes, we are to send you a sample for approval, but if it is found that this material cannot be obtained in Canada, we understand you will arrange to send us the necessary supply from New York. *See 3/19*

We will write you about April 1st advising the number of plates that we would like you to transfer at the Bronx. The situation has changed somewhat since we first discussed this order with you with the result that we have a number of new postage stamp plates to transfer which may alter our schedule as originally planned.

Will you kindly send us a proof of the type printed forms referred to on your orders and we will arrange to print these here. We assume that these are labels to be affixed on the outside of the respective packages. We would also appreciate it if you would send us tintypes or photo-prints of the approved models, faces and backs.

You are quite correct in your understanding that barring unforeseen delays beyond our control, we will be able to start deliveries in six weeks after receipt of the rolls or five weeks after receipt of the plates, delivering during the first month 6,000,000 notes in assorted

denominations and 8,000,000 notes per month thereafter. This promise of delivery relates to both the Nederlandsch - Indie and the Nederland orders.

We have gone over with Mr. Cotter the various details of this order, all of which seem to be quite clear to us, and we have noted in the event of any changes having to be made during the progress of the work, that you will advise us promptly.

Yours faithfully,

Gentlemen,

I herewith request you to issue your irrevocable letter of credit in favor of American Bank Note Company, 70 Broad Street, New York City, for an amount of \$ 230,000 (two hundred and thirty thousand dollars), available by drafts at sight bearing your credit number and accompanied by complete sets of the following documents:

✓ Commercial invoice, in triplicate; ✓

? - Custom invoice and Declaration of Value, in triplicate;

On board Ocean Bills of Lading (issued in the name of) the Netherlands Treasury Department, London, England; through Bills of Lading are acceptable provided they bear an on board endorsement;

Insurance Certificate/Policy issued by an insurance company or companies covering all risks of physical loss of or damage to the insured property from any external cause from shipper's or manufacturer's warehouse until safely deposited in consignee's or other warehouse at destination, including the risk while on quays, wharves, sheds, appraiser's stores or general order stores or elsewhere during the ordinary course of transit including War Time Extension clause, and war risk, and including risks of both-to-blame collision clauses in the bills of lading.

Drafts must be drawn and presented within two weeks after date of Bills of Lading, but not later than April 1, 1944, evidencing shipment from a U.S.A. port to London, England of ~~22,950,000~~ currency notes.

All documents are to be surrendered to you upon payment. Please hold these documents for account of the Royal Netherlands Government until receipt of further instructions.

*Support

for each partial lot of water as
ready for delivery.

- 2 -

Payment may also be effected under this credit against commercial invoice in triplicate accompanied by a certificate of manufacture issued by beneficiary, who, in this case, ^{beneficiary} must give a written assurance that it has covered and will continue in effect, insurance against all risks of physical loss of or damage to the insured property from any external cause, and also against war damage, up to the time such merchandise is loaded on board the carrying steamer and that in the event of loss or damage, beneficiary agrees that any recovery under the insurance policies and/or certificates will be payable to you for account of the Royal Netherlands Government. The certificate of manufacture must state that the merchandise specified in the invoice has been manufactured and is being held in supplier's control in your name.

You are authorized to deliver to beneficiary any Certificate of Manufacture received by you under this credit against beneficiary's undertaking to deliver to you full sets of Ocean Bills of Lading and /or through export Bills of Lading, as indicated above, when shipment has been effected, together with Custom Invoice and Declaration of Value in triplicate and Insurance Policy/Certificate as specified above.

You are further authorized to pay to beneficiary under this credit \$ 57,500 against beneficiary's statement that this amount represents an advance payment which will be proportionately deducted from its invoices, with the understanding that said advance will be entirely liquidated upon presentation of the last invoice.

I request you further to issue a second irrevocable letter of credit in favor of the same beneficiary for an amount of \$ 75,000, available against drafts at sight bearing your credit number and accompanied by a detailed statement of shipping and insurance expenses relative to and covering the merchandise paid for under the above credit, from the time it is loaded aboard a steamer in an American port to its delivery to consignee's or other warehouse in London, England.

Both these credits expire in New York on April 1, 1944.

MEMORANDUM

THE NETHERLANDS

In re. draft of letter of March 8, 1943 from Mr. Philips of above to Guaranty Trust Co. of New York and conditions mentioned therein in connection with opening two Letters of Credit in our favor.

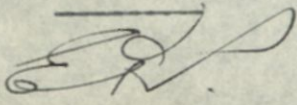

Customs Invoice and Declaration of Value:- Mr. Beckett says we have not used such forms before. He telephoned British Consulate and was informed this is combined in one document and is used for shipments to British possessions. Also that no form is available for shipments to England, for which it is not required.

Insurance:- Our marine policy covers all risks of physical loss from warehouse to warehouse, including War Time Extension clause and both to blame collision clauses.

We cannot, however, furnish an all risk policy on the work in progress or when completed and still on our premises. Such insurance could be secured only through special investigation by insurance underwriters, and the rate would be exorbitant. We could, however, state in Certificates of Manufacture that fire and War Damage insurance is covered under our own policies while the notes remain on our premises and that War Damage insurance will be covered on the notes at the time of shipment and while they are in transit from our premises until loaded on board the carrying steamer.

As to War Risk insurance after the shipment is discharged in England, Mr. Wadhams of Johnson & Higgins said the British Government only covers such risks and policies are issued in pounds sterling.

MEMORANDUM

THE NETHERLANDS

Mr. Blackmore and I called yesterday noon on Mr. Philips and Mr. von Hemert, Room 668, 11 Broadway, with reference to the draft of letter of March 8 which Mr. Philips was to write to Guaranty Trust Co. of New York in connection with the opening of two Letters of Credit in our favor.

After we had explained the difficulties of meeting some of the conditions outlined in the letter to the Guaranty Trust Co. and had called attention to the fact that the Credit for shipping expenses should be for \$35,000.- and not \$75,000.-, Mr. Philips agreed that his letter should be changed and asked us to redraft the letter.

This was done and I submitted our draft to Mr. Philips and Mr. von Hemert late in the day, as per copy attached. Mr. Philips then requested Mr. von Hemert to rewrite the letter for his signature that evening. Mr. von Hemert made some changes with my approval and the letter was then rewritten.

March 11th, 1943.

We received today Letter of Credit from the Guaranty Trust Company for \$230,000.- covering the notes, providing for payment against our invoices and Certificates of Manufacture. Mr. von Hemert called here today and advised that the Guaranty Trust Co. informed him that Mr. Philips' letter omitted reference to War Risk insurance for the ocean voyage. This evidently was overlooked in preparing our draft.

March 11th, 1943.

However, it then developed when I telephoned Mr. Wadhams of Johnson & Higgins that the British Government will not insure against War Risk while the shipment is on land in the British Isles unless it also covers War Risk for the full ocean voyage from New York. Mr. Wadhams did not so inform me when I talked with him on the 9th inst., at which time he mentioned only that the British Government policy on shore is the only insurance that can be purchased after the goods are discharged.

Mr. Wadhams also advised today that the British Government will insure in sterling only and that in case of loss, the sterling received for the insurance recovery may be sold in London and the proceeds remitted to New York in dollars. He further said that Johnson & Higgins could not give us a British Government policy, but would furnish Johnson & Higgins' advice of insurance coverage.

Mr. von Hemert then said that a British Government policy would not be satisfactory, since he feels that in case of loss the Netherlands Government would not be permitted to send the dollar exchange to New York because of British Government restrictions on the transfer of Netherlands funds. However, he said he will see the Guaranty again and advise us further.

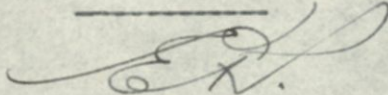

He later telephoned that he has again discussed the matter with the Guaranty and that he will now write a letter to Mr. Philips in London explaining the situation and recommending that War Risk insurance be covered in the United States, and that the Netherlands authorities make such arrangements as may be possible to protect our shipments by insurance or otherwise after the arrival of vessel. He will ask Mr. Philips to cable his answer to the Guaranty.

Dear Sir:

We beg to hand you herewith for your examination and approval the revised face and back models of the .50 Gulden note, in which we have shown in the denominational counters the letters "CT." in a larger size than they appeared on the original models. *retd. approval by Mr. A. Philippe von Hemert 3/17/43*

We also send you for approval the following working models:

Faces and backs of the 1 and 10 Gulden notes,
Backs of the 50 and 100 Gulden notes. *retd. approval by Mr. A. Philippe von Hemert 3/17/43*

We believe that the models as now submitted are correct in every detail, with the exception of the portrait of H. M. Queen Wilhelmina, which will be altered upon receipt of the new photograph. If such is the case may we ask you to be good enough to sign the models as approved and return them to us at your early convenience.

Following our usual custom we will number the notes in red, but as the 1 Gulden note is to be printed in a red color (S O 86 Rose) please instruct us if the numbers for that denomination are to be printed in red, so as to be uniform with the other denominations, or if they are to be printed in blue to make a contrast with the color in which the notes are to be printed.

Trusting that the models submitted meet with your approval,

As a matter of record we are pleased to advise you that we have received from Dr. R.E. Smits the portrait of H.M. Queen Wilhelmina, which we are to use as the subject for the vignette on the notes of the Netherlands and of the Netherlands-Indies.

We also received from Dr. Smits the specimen signature of the Netherlands Minister of Finance, whose signature is to be used on the Netherlands notes.

We confirm having submitted to you for approval of the position of the portrait, the revised model of the face of the 25 Gulden note, which model was duly approved by you.

In due course we will furnish you with two full sets of photographs of the approved models.

In accordance with your instructions we will number the One Gulden notes in blue.

We refer to your letter of acknowledgement of orders of the 8th inst. and to that paragraph appertaining to the metal which is to be used for the lining of the cases.

We wish to advise at this time that it will be impossible for us to furnish you with a supply of metal for lining the cases from New York and it will be necessary that you obtain the necessary quantity in Canada.

We have now received complete packing instructions for the above orders and are enclosing sufficient copies of change tickets Nos. A 13896 to A 13901 inc. and A 13960 to apply against all orders.

We are also sending you a copy of a wrapping schedule for these notes. You will find noted on change ticket A 13901 a memorandum for the Bronx Plant to send to Ottawa a dummy miniature package of our method of packing for Air Transportation. When Mr. Cotter left New York he took with him samples of material used and information as to how these packages were prepared. We will not plan to send the miniature package to you unless you deem it necessary. If you will advise us in this matter we will be glad to comply with your wishes.

Since you will now have all the text matter that is necessary for the bands and labels, if you will prepare proofs of same we will have them approved.

We have arranged with the Engraving Division to send you tin-types or photo prints of the approved face and back models as soon as convenient.

Order F 11474

Dear Mr. Blackmore,

Many thanks for your letter of March 24 in which
you sent me a specimen note in color 6 olive.

After comparing this color with the colors which
have been chosen for all other notes except the 25 gulden note, I
definitely feel that this color (6 olive) is preferable to the two
alternative olives which have been originally chosen as possibilities
for the 25 gulden note.

I hereby beg to confirm that color No. 6 olive
should be used for the face of the 25 gulden note instead of the original
sample marked 5 olive which shows a great similarity with color 1 green
chosen for the 2.50 gulden note and the color 55 3/4 olive which turned
out to show great similarity with the black used in the 100 gulden note.

Dear Mr. Blackmore,

I hereby beg to hand you a large sized specimen of the photograph you recently received of Her Majesty Queen Wilhelmina. This photograph has been sent to me by the Netherlands Embassy in Washington and will probably be very helpful in the matter of the engraving. Kindly consider this photograph as loaned to you for this purpose as I have a feeling that the Embassy might like to have it returned later on.

Replying to your letter of the 26th ultimo, relative to the disposition of the spoiled work and overs, etc., and also the destruction of the bad work before the completion of each order, we feel that you should pursue the same procedure throughout as if these were your regular orders.

Naturally we are basically concerned in this question as to whether your accounts would balance out correctly, and the only question that we might have at this time is what you would do in the event of an order not balancing and the bad work, or the evidence, so to speak, had already been destroyed.

Memorandum

THE NETHERLANDS

Mr. von Hemert called here today with reference to a cable he has received from Mr. Philips in connection with the Letter of Credit to be opened to cover shipping expenses. The cable read as follows:

"Please cable New York quotation open cover printed matter American part to English part by any conveyances all risks including war, warehouse to warehouse as applicable, \$100,000 per any one conveyance."

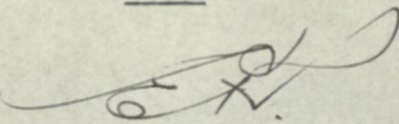

For Mr. von Hemert's information, I telephoned Mr. Wadhams of Johnson & Higgins, who gave me following rates:

War Risk Rate 10% to west coast England by steamer
Plus 2% for Extended Transhipment Clause, if desired,
or Rate 2% to England by air

Marine Rate 1/4 of 1%, plus surcharge of 3/4 of 1%, making
total rate .01%, plus Extended Transhipment Clause,
if desired, at rate to be determined at time of ship-
ment. However, this clause will probably be compulsory
and automatic in the near future.

Mr. von Hemert understands that warehouse to warehouse War Risk coverage cannot be purchased in the American market and that the British Government only will cover the on shore risk, provided the full voyage is included.

Mr. von Hemert is to cable Mr. Philips and will communicate with us again when he has any definite information.

The Netherlands

Mr. A. Ph. von Hemert called at this office late Tuesday afternoon, April 20th, and he advised that he had that afternoon received a cable from the Treasury Department of The Netherlands Government at London to the effect that he was to ascertain from us if arrangements could be made to increase the existing order to 32,000,000 notes. Also that he was to "undo the cancellation" of the option for the 50 cents notes. The cable stated that a letter and instructions would reach him about May 1st.

With regard to the option for the 50 cents notes, he supposes that the Treasury Department is under the impression that he had cancelled the option in view of a letter which he had received from The Netherlands Embassy at Washington, copy of which may have been sent to London, informing him that arrangements had been made to have 50 cents coins minted by the U.S. Government.

Referring to the increase for the existing order, the increase would be from the present total of 22,950,000 notes to 32,000,000 notes. I told him we could take care of that increase, but that we should know as soon as possible how the additional quantity is to be distributed among the 6 denominations, to enable us to order the paper.

Mr. von Hemert expects that all details will be given in the letter mentioned in the cable, but nevertheless he would cable the Treasury Department that he had made a note to cable Mr. Philips on April 26th asking for instructions regarding the option; that he had not cancelled the option; that we could take care of printing the additional notes, and that he should be advised how the increase would be distributed among the 6 denominations.

He told me that if the additional notes are ordered he would attend to the corresponding increase in the amounts of the letter of credit to cover the advance payment, payments of partial deliveries and for the shipping expenses.

Mr. von Hemert will communicate with us when he receives further instructions from London.

A handwritten signature in dark ink, appearing to read "Robert H. Jackson", is written over a horizontal line. The signature is fluid and cursive.

May 6, 1943.

Mr. A. Philips, accompanied by Mr. A. Ph. von Hemert, called at the office this morning.

He confirmed Mr. von Hemert's telephone advice to us of yesterday's date that no 50 cents notes would be issued, but that in place of them, in order to keep the total face value of the issue up to 100,000,000 Gulden, the existing order would be increased by 10,000,000 Gulden face value in notes of 10 Gulden and 5,000,000 Gulden face value in notes of 25 Gulden, or say 1,000,000 notes of 10 Gulden and 200,000 notes of 25 Gulden. New distribution follows:

Re: NEDERLAND ✓
NEDERLANDSCH-INDIE

The type proofs of the bands and labels received with your letter of May 7th are returned to you herewith, with necessary alterations marked on them. ✓

You will note that in place of a capital letter "F" to designate the "florin" we are to use a slanting "f" as marked on the proofs, which is similar to the letter "f" generally used in italic type. No period is to be placed between the monetary unit symbol and the denominational amount.

Further, please note that, to conform to the Netherlands system for figures, a comma is to be placed between the amounts for florins and cents. Thus 2,50 - and where there are no cents then a comma and a dash " 10,-" .

On the labels, where the quantities of the notes appear, instead of placing a comma between the last four and last three digits we must show a period.

The last letter "I" in the word "INDIE" must have a diaeresis mark (two dots) over it.

Dear Mr. Toller :

re: Netherlands

Confirming telephone conversation this afternoon I have just observed from the Plant's letter to Percy Wood dated May 13th that they are not keeping their original promise with respect to delivery of engravings.

I have called them and am afraid that there may possibly be some misunderstanding. I merely wish to reiterate that we are committed to a delivery schedule, # copy herewith, which I believe you have heretofore received through the Plant.

If our Engraving Department are not meeting your needs so as to permit you to fulfill the delivery requirements, won't you please take the matter up with them direct and arrange with them accordingly.

Dear Mr. Schomp:

re The Netherlands Notes
The Netherlands East Indies Notes

I have received your letter of the 14th instant together with copy of revised delivery schedule bearing the same date, which is in agreement with the one previously received through the Plant. Although the 1/2 Gulden Notes are included in this schedule, it is my understanding that this denomination will not be required.

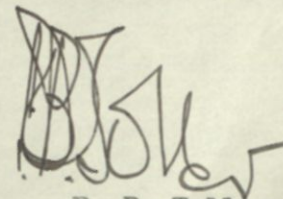

Under date of May 15, the Plant advised us of the revised dates on which they will ship the plates for the Netherlands Notes and these are approximately the same as the original dates given in their letter of March 31. Provided these dates are adhered to and there is no undue delay in delivery to us, we fully expect to ship a total quantity of 6,000,000 - Netherlands Notes in five denominations during the first month from June 15 to July 15 as called for by the schedule. We also expect to carry out the delivery schedule from then on, including the East Indies Notes, the first shipment of which will be forwarded in the second month between July 15 and August 15.

With reference to the schedule calling for delivery of part Netherlands and part Netherlands East Indies Notes in the same month, we understand, of course, that the respective Notes must be parcelled and packed in separate boxes for shipment to the Plant and, unless advised to the contrary, we will follow this arrangement.

You may rest assured of every co-operation on our part with respect to these orders and should we find the Bronx Plant is not living up to their promises for delivery of the plates and rolls, we will take the matter up direct with them.

In reply to your letter of May 21st, in which you quote a letter from Ottawa regarding the wrapping of the 2.50 Gulden notes, we refer you to change slip No. A13901, dated March 10th, of order F11471, in which instructions are given for the wrapping of the 500 standard packages each to contain 14,475 notes distributed among 6 denominations.

It is not our intention to wrap each denomination separately in Kraft paper and then wrap the small packages into one large standard package. The standard packages containing 14,475 notes in 6 denominations are each to be made up of the necessary quantity of banded notes, 31 bands in all, which are to be wrapped together in Kraft paper, with a label on the wrapper showing the contents. Each standard package is then to be wrapped again in waterproof paper for airplane transportation with a duplicate label on the outer wrapper.

Dear Mr. Schomp:

re Netherlands and Netherlands Indies Notes

Upon my return to the office today, after spending a few days in the woods, I found your letter of the 26th instant confirming my understanding that the above two orders must be treated as separate entities.

All details of these orders are clear to us with the exception of the wrapping and shipping instructions for the Netherlands Notes. Our promise was to ship an aggregate quantity of 6,000,000 Notes in five denominations during the first month as called for by the delivery schedule. Change slip #A13901 dated March 10 for order F11471 calls for 500 standard packages each containing 14,475 Notes in six denominations or an aggregate quantity of 7,237,500 pieces. Due to the delivery dates of the plates, it will be impossible to ship any 100 Gulden Notes in the first month and we will, therefore, include 50 additional Notes of the 50 Gulden denomination (14,500 Notes) to a standard package.

Based on the Netherlands delivery schedule of 6,000,000 Notes in the first month, we figure the number of packages as follows:

3,100,000	-	1	Gulden	Notes	in	310	packages	of	10,000	pieces
1,000,000	-	2½	"	"	"	500	"	"	2,000	"
1,000,000	-	10	"	"	"	500	"	"	2,000	"
800,000	-	25	"	"	"	2,000	"	"	400	"
100,000	-	50	"	"	"	2,000	"	"	50	"
6,000,000									14450	

making a total of 6,000,000 single Notes, which does not seem to me correct, and I would appreciate your advice on the matter.

Referring to your letter of May 7, we have not yet received official advices and numbering instructions with respect to the increased quantities for the Netherlands 10, 25, 50 and 100 Gulden Notes and I assume the Plant will forward this information at an early date.

Yours faithfully,

NEDERLAND(The Netherlands)

Attention Mr. P.B. Toller, President

Your letter of May 31st, addressed to our President, Mr. A.L. Schomp, has been referred to the writer for reply.

You are quite right in thinking that the number of packages and the distribution of 6,000,000 notes in five denominations, as mentioned in the third paragraph of your letter, is incorrect.

We believe that the trouble you have encountered in understanding the way that the 500 Standard packages, each containing 14,475 notes, divided among 6 denominations, are to be made up, is due to your having based your figures on the production schedule instead of on the wrapping schedule. A copy of the wrapping schedule should have been sent to you with Change Slip No. A13901, dated March 10. From the note on the bottom of this schedule you will see that 300 packages, each containing 14,500 notes in 5 denominations, are to be made up from the first month's printing, and 200 packages of 14,475 notes in 6 denominations are to be made up during the second month of printing.

We believe that if a revision is made of Change slips Nos. A13897 to A13901 inclusive, dated March 10, in conjunction with the wrapping schedule, that everything will then be clear to your wrapping department. As a further aid we attach two lists, one setting forth the contents and manner of wrapping each of the 500 Standard packages, and the other a balance sheet of the printing in the first two months and the notes needed for making up the said 500 packages.

Wrapping instructions for the balance of the notes and shipping instructions will be sent to you later on.

If there is anything which is not entirely clear to you please do not hesitate to let us know, for we wish to assist you in every way possible.

You will please understand that all instructions which are to be observed by you in connection with these orders, as likewise for those of the Netherlands Indies, are those which you receive through our Bronx Plant. The object of this letter is merely to clarify your doubts as to the way the notes for the Netherlands are to be wrapped.

*To All Banking Institutions, and Others Concerned,
in the Second Federal Reserve District:*

Enclosed herewith is a pamphlet which the Treasury Department has requested us to make available to banks and other interested parties, for their information, containing official English translations of two Netherlands Royal Decrees dated March 6, 1942, and May 7, 1942, together with copies of certain communications relating thereto.

The Netherlands Royal Decree of March 6, 1942, and the power of attorney issued thereunder, relate to certain property of individuals and companies resident in the Netherlands East Indies. The Netherlands Royal Decree of May 7, 1942, modifies and clarifies the Netherlands Royal Decree of March 6, 1942, and the Netherlands Royal Decree of May 24, 1940. Copies of an English translation of the Netherlands Royal Decree of May 24, 1940, and certain communications relating thereto, were enclosed with our circular No. 2091 dated July 2, 1940.

Additional copies of this circular and the enclosed pamphlet will be furnished upon request.

JUN 21 1943

My dear Mr. Secretary:

On September 3, 1942, I sent for your information certain documents received by me from the Ambassador of the Netherlands. Those documents consisted of a note dated May 11, 1942 which enclosed the official English translation of the Netherlands Decree of March 6, 1942, dealing with property interests appertaining to persons in certain Netherlands possessions, and set out the text of the power of attorney granted the Netherlands Ambassador (then Minister) by his government authorizing him to act for his government under that Decree; and a note from the Netherlands Ambassador dated July 14, 1942 which enclosed the official English translation of the Netherlands Decree of May 7, 1942, the purpose of which was to clarify some of the terms contained in the Decrees of May 24, 1940 and March 6, 1942. I have received the letter of February 9, 1943, signed by Mr. Randolph Paul as the Acting Secretary of the Treasury, acknowledging receipt of the documents enumerated above.

The Netherlands Ambassador would be grateful if those documents and their enclosures could be brought to the attention of interested persons and institutions in the United States as was done in the case of the Netherlands Decree of May 24, 1940 and certain communications related thereto. As you will recall, copies of that Decree and related communications were transmitted by your Department to the Federal Reserve Bank of New York which published them.

As you know, the Government of the United States continues to recognize as the Government of the Kingdom of the Netherlands the Royal Netherlands Government, which is temporarily residing and exercising its functions in London, and recognizes Dr. Alexander Loudon as the duly accredited Ambassador of the Netherlands to the United States.

The Department of State has taken official cognizance of the Decree of March 6, 1942 and the Decree of May 7, 1942, which have been notified to it by the duly accredited Ambassador of the Netherlands.

The Honorable

Sincerely yours,

Henry Morgenthau, Jr.,

The Secretary of State presents his compliments to the Honorable the Secretary of the Treasury and transmits a copy of a communication, dated May 11, 1942, from the Ambassador of the Netherlands in Washington to the Secretary of State setting forth the text of a Power of Attorney issued to the Netherlands Ambassador under a Royal Decree dated March 6, 1942 relating to certain properties of individuals and companies resident in the Netherlands East Indies together with its enclosure, being a copy of the official English translation of the aforementioned Decree. There is also enclosed herewith a copy of a note of July 14, 1942, from the Netherlands Ambassador together with its enclosure, being a copy of the official English translation of a Royal Decree dated May 7, 1942, which modifies and clarifies the Royal Decrees of May 24, 1940 and March 6, 1942.

The Secretary of State calls attention to the Department's letter of May 28, 1940 with which was enclosed a copy of a note from the Netherlands Minister in Washington regarding the promulgation of a Royal Decree dated May 24, 1940 relating to certain properties of individuals and companies resident in the Kingdom of the Netherlands and to the Department's letter of June 27, 1940 setting forth the exchange of notes between the Department of State and the Netherlands Minister in Washington relative to such Decree and Power of Attorney issued thereunder to the Minister of the Netherlands.

Sir:

With further reference to my note of March 7th, 1942, No. HA-1858 I have the honor to transmit to Your Excellency herewith the official English translation of the Decree which vests in my Government the property rights of claims and rights standing in the name of natural and legal persons residing in the Netherlands Indies.

On March 9th, 1942 my Government granted me a Power of Attorney under the Decree similar to the Power granted me under the Netherlands

Royal Decree of May 24, 1940.

The text of the Power of Attorney reads:-

"The Royal Netherlands Government temporarily residing and exercising its functions in London, acting through the undersigned: J. R. M. van Angeren, Minister of Justice, E. N. van Kleffens, Minister for Foreign Affairs, J. W. Albarda, Minister of Finance *ad interim*, P. Kerstens, Minister of Trade, Industry and Shipping, P. S. Gerbrandy, Minister for the Colonies, hereby authorizes the Netherlands Minister at Washington, D. C., Dr. Alexander Loudon, to operate, control and otherwise exercise complete dominion over all accounts and all other property and interests of any nature whatever in the United States of America, its territories and possessions, title to which is vested by virtue of the Royal Decree of March 6, 1942, Netherlands Law Gazette No. C 18, in the State of the Netherlands as represented by the Royal Netherlands Government temporarily residing and exercising its functions in London. The Netherlands Minister at Washington, D. C., is further authorized to make certifications to any interested party of exemptions under the aforementioned Royal Decree. The Netherlands Minister at Washington, D. C. may from time to time delegate any or all of the authority vested in him hereunder with power of revocation or substitution.

I would highly appreciate it if Your Excellency would extend your good offices to inform such competent United States authorities as you may deem necessary of the text of the Royal Decree of March 6, 1942 No. C-18 and of the Power of Attorney, granted under the Decree.

I further beg leave to state that under voluntary assignments, given by the interested parties in the Netherlands Indies prior to the enemy occupation of Batavia and Bandoeng, the proprietary rights to substantial assets in this country which otherwise would be affected by the Decree, had already been vested in the Netherlands Purchasing Commission, 10 Rockefeller Plaza, New York City, in its capacity as agent of the

Royal Netherlands Government prior to the date on which the Decree became effective.

ROYAL DECREE OF THE 6th MARCH 1942

published in the Law Gazette of the Kingdom of the Netherlands No. C. 18.

WE WILHELMINA, BY THE GRACE OF GOD, QUEEN OF THE NETHERLANDS, PRINCESS OF ORANGE- NASSAU, etc. etc. etc.;

At the recommendation of Our Ministers of Justice, of Foreign Affairs, of Finance, of Trade, Industry and Shipping and for the Colonies dated the 4th March 1942. No. 544/J 2026;

Whereas the interests of the safety of the State make it expedient to take measures to prevent that property of/or debts, obligations and other choses in action due to persons residing in the Kingdom of the Netherlands, especially to persons in the Netherlands East Indies, shall be used in a way which is incompatible with the interests of the State and of the inhabitants, and in particular of those, who reside in the territory occupied by the enemy and whereas it is therefore necessary to commit these properties and debts, obligations or other choses in action to the charge of the State of the Netherlands;

Whereas this is a case of an urgent nature, as provided in article 71 of the Netherlands East Indies Constitution in article 50 of the Surinam Constitution and in article 50 of the Curacao Constitution, in which the People's council of the Netherlands East Indies, the States of Surinam and the States of Curacao cannot be consulted;

Have approved and decreed:

ARTICLE I.

(1) Without prejudice to the provisions of Our decree of 24th May 1940, Staatsblad No. A 1, in respect of debts, obligations and other choses in action, which have been or will be vested in the State of the Netherlands, all rights arising out of debts, obligations and other choses in action against persons, partnerships, companies, firms, institutions and corporations belonging to natural or legal persons residing or domiciled in the Netherlands East Indies, including all claims for the delivery up of any gold deposited, in so far as they are in any way capable of being mortgaged or offered by way of security, transferred or disposed of or dealt with in any way outside enemy and enemy-occupied territory and outside territory, which by virtue of the pro-

visions of our decree of 27th of March 1941, Staatsblad No. B 30, must be considered enemy territory, are hereby vested in the State of the Netherlands, as represented by the Royal Netherlands' Government temporarily residing and exercising their functions in London, subject always to the provisions of article 4.

(2) The provisions of the first paragraph of this article shall also be applicable to all claims resulting from confirmed credits and from participation in the capital of/or loans to partnerships, companies or firms (whether or not such claims are registered or expressed in stock or share certificates, bonds or other documents) in so far as these claims belong to natural or legal persons in the Netherlands East Indies and in so far as these claims are capable of being mortgaged or offered by way of security, transferred or disposed of or dealt with in any other way outside enemy and enemy-occupied territory and outside territory, which by virtue of the provisions of Our Decree of 27th of March 1941, Staatsblad No. B 30, must be considered enemy territory.

(3) The rights of ownership accruing to the State of the Netherlands by virtue of the provisions of the first and second paragraph of this article shall be exercised only for the purpose of safeguarding the rights of the former owners.

ARTICLE 2.

Legal persons which in accordance with the provisions of the Act of 26th April 1940, Staatsblad No. 200, have transferred their seat, registered office or principal place of business, as the case may be, from the Netherlands East Indies to a part of the Kingdom not occupied by the enemy, shall for the application of article 1 be deemed to have been resident and domiciled or established on the date this decree comes into force outside the territory of the Kingdom occupied by the enemy, provided that the transfer of the seat, registered office or principal place of business, as the case may be, has been previously approved by our Ministers of Justice, or afterwards been sanctioned by the Governor of Surinam or the Governor of Curacao.

ARTICLE 3.

This decree also applies for the Netherlands East Indies, Surinam and Curacao.

ARTICLE 4.

(1) Three months after the present emergency circumstances shall, in Our Judgment, have ceased to exist restitution shall be made to the former owners of the rights arising out of the debts, obligations and other choses in action referred to in article I.

(2) Notwithstanding the provisions of paragraph (1) of this article Our Minister of Justice and Our Minister for the Colonies are hereby empowered jointly to effect the restitution to the former owners before the date set out in the first paragraph of this article, where it is proved to their satisfaction that such rights shall not be exercised directly or indirectly for the benefit of the enemy.

ARTICLE 5.

This decree will come into force on the day of its publication in "het Staatsblad".

This decree which shall be published in "het Staatsblad" shall be carried into effect by Our Ministers of Justice, of Foreign Affairs, of Finance, of Trade, Industry and Shipping and for the Colonies, in so far as each of them is concerned.

Washington, July 14, 1942.

Sir:

Referring to my letter of June 1, 1940, No. 4259, wherein I transmitted to Your Excellency a certified English translation of the Netherlands Royal Decree of May 24, 1940, I have the honor to enclose herewith a certified copy of the English translation of the Royal Decree of May 7, 1942, No. C-34.

The purpose of the Royal Decree of May 7th is mainly to clarify some of the terms contained in the Royal Decree of May 24, 1940.

I would feel deeply appreciative if Your Excellency would be good enough to have the contents of the Royal Decree of May 7th communicated to the appropriate United States authorities and if, as in the case of the Royal Decree of May 24, 1940, such authorities could see their way clear to have the contents of the enclosed Decree disseminated to

interested institutions through the intermediacy of the Federal Reserve Bank.

Please accept, Sir, the renewed assurances of my highest consideration.

C 34

STATE LAW RECORD OF THE KINGDOM OF THE NETHERLANDS (No. C 34) Decree of May 7, 1942, containing provisions having for their purpose the removal of doubt concerning the interpretation of some terms appearing in the Royal decrees of May 24, 1940, State Law Record No. A 1, and of March 6, 1942, State Law Record No. C 18, as well as a single amendment in connection therewith.

We WILHELMINA, by the Grace of God, Queen of the Netherlands, Princess of Orange Nassau, etc., etc., etc.

As submitted by our Ministers of Justice, of Foreign Affairs, of Finance, of Commerce, Industry and Shipping and of Colonies on April 8, 1942 No. 876/J.2026;

Considering that, for the removal of uncertainty which may have arisen in connection with the application of Our decrees of May 24, 1940, State Law Record No. A 1, and of March 6, 1942, State Law Record No. C 18, concerning the meaning of some terms contained therein, it is desirable to place beyond doubt the interpretation thereof and in connection therewith to effect a single amendment;

Considering that this is a case of urgency, for which provision has been made in article 71 of the Constitution of the Netherlands Indies, in article 50 of the Constitution of Surinam and in article 50 of the Constitution of Curacao, in which the People's Council of the Netherlands Indies, the States of Surinam and the States of Curacao cannot be consulted;

Have approved and ordered:

ARTICLE 1.

Claims as referred to in article 1 of Our decrees of May 24, 1940, State Law Record No. A 1, and of March 6, 1942, State Law Record No. C 18, include, besides those explicitly mentioned in the said articles, claims to moneys as well as title to or rights in and claims for the delivery of property, as this term is defined in articles 565 to 567 inclusive of the Civil Code.

ARTICLE 2.

Further to and in conformity with the provisions of the Articles 1 of Our said decrees, restitution as referred to in article 5 of Our decree of May 24, 1940, State Law Record No. A 1, and article 4 of Our decree of March 6, 1942, State Law Record No. C 18, means:

- a. restitution of ownership to the persons originally entitled to the claims, in so far as the latter have not been effectively exercised and disposed of by the State of the Netherlands;
- b. the delivery of the proceeds of, or of whatever has been substituted for, claims which have been exercised and disposed of by the State of the Netherlands, to the persons originally entitled to those claims.

ARTICLE 3.

In the first sentence of sub-division 1 of article 2 of Our decree of May 24, 1940, State Law Record No. A 1, after "May 15, 1940" are inserted the words "or, in the event they have arisen since that date, on the date of their arising", while in the closing sentence of the said sub-division "May 15, 1940" is substituted for "that date".

ARTICLE 4.

This decree is also binding for the Netherlands Indies, Surinam and Curacao.

Our Ministers of Justice, of Foreign Affairs, of Finance, of Commerce, Industry and Shipping and of Colonies, each in so far as his Ministry is concerned, are charged with the execution of this decree, which will be published in the State Law Record.

Dear Mr Treadwell:

The Netherlands

Allow me to express in these few lines my appreciation of the reception you gave Mr. Von Hemert and myself at the plant yesterday. It was very interesting to acquire some first hand knowledge of a number of things I had heard previously from your President and several other gentlemen at the Head Office of your Company. Moreover, it was a great pleasure to meet you and your associates. I came away feeling that not only had I seen one of the most interesting and best appointed manufacturing plants I have ever visited, but also that I had been given for a day the privileges of a club of artists and craftsmen!

I sincerely hope that it may be my good fortune to have an opportunity of repeating these enjoyable experiences.

Very sincerely yours,

We refer to our letter to you of June 4th. For your information we would mention that we are in receipt of a letter from Ottawa acknowledging ours of the 4th instant and advising that everything is now clear to them with respect to the wrapping and delivery instructions for the Netherlands and the Netherlands Indies.

However, they end their letter by saying :-

"We notice, however, no reference is made in the wrapping instructions to pack the notes with corrugated board which according to our understanding is the practice followed by the Bronx Plant. Therefore, if you wish us to use corrugated Board for these orders, we suggest that you have the Plant instruct us accordingly and as soon as possible so that we may arrange to obtain the necessary supply.

It was our understanding that complete details of our method of packing had been given to Mr. Cotter at the time he visited you in connection with the execution of these orders. Please be good enough to see that Ottawa is fully informed regarding the method and materials to be used in wrapping the notes for the Netherlands and Netherlands Indies.

Orders Nos. F11471 to F11476

TO NEW YORK FROM OTTAWA

DATE June 18th, 1943.

JUN 21 1943

Attention - Mr. C. T. Blackmore, Manager, Foreign Department.

Answering your telephone enquiry of yesterday, we beg to advise that the cost of shipping the notes on these orders to Halifax by express will be as follows:

\$5.15 per 100 lbs. on weight
\$2.00 " \$1000. on value for express purposes

On this basis it would cost \$1,065.63 to ship 125 cases estimating the gross weight per case at 150 lbs. and the value at \$400.00, for example:

125 cases x 150 lbs. - 18,750 lbs.	@ \$5.15	- \$965.63
125 " x \$400.00 - \$50,000.00	@ \$2.00 per M	- \$100.00
		<u>\$1065.63</u>

Case of 57,900 notes = \$585.-

\$4.05 for export, verbal P. Wood.

The net weight of 14,500 Notes only is 28½ lbs. and the size of the case containing four standard packages is 24½" long x 18" wide x 14¾" deep.

Please note that inasmuch as the 100 Gulden Notes will not be ready by July 15th, the standard package on the first shipment will be 14,500 Notes and the total shipment will consist of 75 cases.

Dear Mr. Schomp:

I acknowledge receipt of your letter of the 17th instant together with the original letter of introduction to Mr. August Philips, Special Advisor to the Treasury Department of the Royal Netherlands Government, of the same date and copy of same which Mr. Philips presented to me on Saturday morning last.

We have had several interviews with Mr. Philips and this afternoon we took him through the Plant at which time we explained to him our general procedure in the handling of their Notes. Mr. Philips expressed himself as being very well satisfied with our methods of manufacture as well as the safeguards employed in the protection of their work.

I was able to put him in touch with the Governor of the Bank of Canada and from present appearances, it looks as though the Bank will place its facilities at the disposal of the Netherlands Government in connection with the shipping of the Netherlands Notes to Halifax, which will simplify the matter very materially. I understand from Mr. Philips that in the case of the Netherlands-Indies Notes, they are to be shipped to the Bronx Plant as previously instructed.

Yours faithfully,

President.

Canadian Bank Note Company

Gentlemen,

I received from the American Bank Note Company, New York, copy of your letter of June 22 to them, confirming the arrangements for shipping notes of the Netherlands from Ottawa to Halifax, N.S., which we discussed orally during my recent stay in Ottawa. I thank you for this letter, which accurately sets forth the shipping instructions we worked out during the pleasant talks I had with your President and Vice-President.

Please note the name and address of the Netherlands Naval Liaison Officer at Halifax, as follows:

Lt. Commander J. Droste
435 Barrington Street
Halifax, N.S.

After my visit to the Bank of Canada I already had occasion to inform your Vice-President, Mr. P.J. Wood, that the Bank of Canada did not have enough space available in the vaults of their Branch at Halifax to store temporarily a shipment of the size we have in mind. However, I was told that shipments of securities and valuables are going down to Halifax regularly by express and arrive there so well on time as to allow their immediate loading on board the vessels that are to carry them. Under the circumstances the Bank of Canada offered their assistance with a view to letting you know some time in advance when shipments could be made. This arrangement appears very satisfactory to me, and if it meets with your approval I would suggest that you avail yourselves of the Bank's offer. It will then be a matter for you to decide whether it will be possible

to ship as many cases as the vessels can take on board at a given date, or, if not, how many cases you can ship. Conversely, should insufficient shipping space be available to carry all the cases you have ready for delivery, the excess will remain on your premises until such time as shipment can be made.

As a result of these arrangements the schedules agreed upon between us will not show precisely when certain quantities will be shipped, but will serve merely as a guide for the quantities and denominations of notes to be finished during a given month. You will decide, in the light of the data furnished by the Bank of Canada, just when delivery will be made. Needless to say, it will be appreciated if you will endeavor to expedite matters as much as possible. I hope to be able soon to let you have further packing instructions.

It is my understanding that you will secure export licenses, if any are required; should difficulties be encountered in obtaining such licenses, I am confident the Bank of Canada will gladly lend you their assistance if you apply to them.

I hereby authorize you to give to Mr. W. van Tets, 199 Wurttemberg Street, Ottawa, whatever information on the production and shipment of notes for the Netherlands and the Netherlands East Indies he may ask for and to consult with him on matters relating thereto whenever you deem this appropriate in the interests of the speedy execution of the orders in hand.

Allow me to express my sincere appreciation of the welcome you gave me and your cooperation both during my visit to your office and plant and at other times.

Very truly yours,

A. Philips.

Memorandum for the files

Re: THE NETHERLANDS

Mr. Blackmore and I called this morning on Mr. Philips, at 11 Broadway, and discussed with him the question of insurance on shipments from Ottawa.

Mr. Philips advised that London is to cover marine and war risk insurance, - part with the British Government and part with Lloyds.

He requested us to cover war damage insurance in transit from Ottawa to Halifax, and to render our bills for this and express charges after each shipment was made.

I informed him that in view of the small amount involved it would not be necessary to open a letter of credit for the shipping charges.

He said it would be more convenient for him if we would await the completion of the order for payment of the shipping charges, because it is his intention to cable London at that time to instruct the Guaranty Trust Company in New York to pay us the amount of such charges, to which I agreed.

We thank you for your letter of the 23rd, and for the proposed form of shipping invoice enclosed therein.

The form you suggest is satisfactory, but we wish you to add to it the net weight, gross weight and cubic measurements of each case, for record purposes.

Instead of preparing five copies of these forms for distribution as mentioned in your letter of June 23rd, please prepare six copies, the additional one for the files of our Bronx Plant.

For your information we would say that we have today entered the shipping instructions in our orders, and we would call your attention to the fact that we have referred to these forms as "packing lists, instead of" shipping invoices", so as not to confuse them with our regular shipping invoices which we use in connection with our foreign shipments, and which carry additional details of the shipments.

Mr. Charles T. Blackmore, Manager Foreign Department

✓ We acknowledge receipt of your two letters dated June 29th and note that you wish us to change the name of the shipping invoice to "PACKING LIST". This will be typed on the upper left hand corner. We also note that you wish us to show on the packing list the net weight, gross weight and cubic measurement of each case and this will appear at the bottom of the packing list. Six copies of the packing list forms will be prepared for distribution as follows:

- 1 for Broad Street Office
- 1 " Bronx Plant
- 2 " Mr. A. Philips. These will be sent to you.
- 1 " Mr. W. van Tets, Ottawa
- 1 " our records.

✓ We have not received from Mr. Philips his letter to us dated June 26th.

It is also noted that the shipping instructions will come to us from the Bronx Plant.

✓ Since writing you on June 22nd we have been in communication with the officials of the Bank of Canada and hope to advise them on July 6th the exact number of cases we will have ready for shipment on July 13th, and we are hopeful of making this seventy-five (75) containing 300 standard packages including the 100 Gulden denomination, but in any case at the moment we expect to have at least fifty (50) cases ready. From this you will see that we are doing our best to gain two days on our original promise so as to conform with the shipping arrangements the Bank is planning to make.

P.J.Wood, Esq., Vice President

As we have advised you in our previous telephone conversations, Mr. A. Philips has requested that we do all we can to increase the number of Standard Packages from the 500 called for in the original Packing Schedule to 1,500, distributed over a period of five months, or say 300 Standard Packages to be produced each month.

Confirming our telephone conversation of yesterday, we attach hereto the new production schedule which Mr. Philips wishes you to follow, so as to provide for sufficient finished notes to enable you to produce the aforementioned 300 packages per month.

He is particularly anxious to have us do this in order to meet his Government's requirements. This is so urgent that if it is necessary for him to do so he would take the matter up with his Government at London and obtain authority to have the printing of the Netherland-Indies notes postponed by one month. He hopes, however, that you will not find it necessary for him to do that.

We appreciate from what you have told us over the telephone that you will do what is possible to meet Mr. Philips' wishes .

Mr. A. Philips,
Adviser of the Treasury Department
of the Royal Netherlands,
11 Broadway,
New York, N.Y.

Dear Sir:

Pursuant to your verbal instructions, we have entered the order for furnishing the Netherlands with 33,300,000 notes, divided among six denominations, all in accordance with the specifications and details discussed between us, as follows:

QUANTITIES	DENOMINATION	FACE COLORS	NUMBERING
800,000	100 Gulden	Black	AA000001 to AA800000
300,000	50 "	P20 Brown	BA000001 to BA300000

steel plate printing; double numbering on the face only.

Price: The price for this order is \$330,000.00 U.S. Currency, F.O.B. Ottawa, Canada, for export shipment.

Terms of Payment A letter of credit already having been opened for the amount of \$230,000.00 with the Guaranty Trust Company of New York, upon acceptance by you of our price of \$330,000.00 for the total issue of 33,300,000 notes, we would ask you to be good enough to increase the existing letter of credit by the amount of \$100,000.00 and to provide payment therefrom of \$25,000.00 as an advance payment of \$25,000.00, with subsequent payments to be made to us upon presentation of our invoices together with certificates of manufacture for each partial lot of notes as ready for delivery.

Time of Execution: Deliveries to be effected as soon as possible in conjunction with the order for the Netherlands-Indies Government, to be concurrently executed.

We have given you a tentative printing schedule for the combined orders, namely the Netherlands and Netherlands-Indies, of approximately 6,000,000 notes within one month after the completion of engravings, to be continued thereafter at the rate of approximately 8,000,000 notes per month.

We anticipate making an initial delivery of the Netherlands notes about the middle of July.

PACKING The notes are to be cut single and to be securely wrapped and packed in metal lined cases for export.

Shipping Instructions Your instructions for the shipping of the Standard Packages have been noted, and in due course you will furnish us with further shipping instructions for the balance of the notes.

Custody of Engravings It is understood and accepted that the engravings from which the above notes are printed shall always remain in the custody of the American Bank Note Company, or they shall be destroyed in our premises upon official instructions and, if you desire, in the presence of your duly authorized representative.

It is further understood that the special engravings prepared for this issue will be used by us only upon receipt of proper authority from the Netherlands Government and/or Netherlands-Indies, for their respective issues.

Inspection Opportunity for observation and inspection of the work being done for your account will be granted, by appointment, to your duly authorized representative.

Dear Sir:

✓ Answering your letter of the 26th ultimo, you will be pleased to know that arrangements have been made to ship Seventy-five (75) cases containing 300 Standard Packages of Netherlands notes on Tuesday, July 13th, and this information has been communicated to the officials of the Bank of Canada who have advised the Canadian Naval authorities here. We understand that unless there is some break in the arrangements, this shipment will be loaded on the ship July 15th. It required very special efforts on our part to advance the date of shipment from July 13th to July 15th, and unless something entirely unforeseen occurs, we will discharge our promise.

(7/12) We received from Mr. Blackmore this morning a letter asking us to try and ship 300 Standard Packages per month for five months and this we have promised to do.

✓ Furthermore, we fully expect to ship in addition to the Netherlands notes 4,000,000 Netherlands-Indies notes in three denominations by August 15th.

Please accept our thanks for the kind references in your letter to the co-operation we were able to afford you during your recent visit to Ottawa. It was, indeed, a pleasure to meet you and trust that the way in which we will handle the orders intrusted to our care will meet with the approval of the Royal Netherlands Government.

Dear Sir:

The Netherlands - Notes

We enclose herewith two copies of a letter we wrote to Mr. L.P.J. Roy, Deputy Secretary, Bank of Canada, Ottawa, yesterday confirming the arrangements made thus far for the shipment of notes to leave Ottawa on July 13th. The second copy is for Mr. Philips in case you wish to send it to him.

Since writing this letter, however, we talked with you this morning and it is now understood that instead of valuing the shipment for express purposes at \$574. per case, we will show the replacement value. This we believe is necessary because the Foreign Exchange Control Board enters the picture when the inter-company settlement takes place and we assume that the Board will look to us for American dollars in approximately the amount shown on the "License to export goods" form.

Attention: Mr. Ch. T. Blackmore.

Gentlemen,

Some time ago I asked you to investigate whether it would be possible to make the necessary arrangements for delivering 300 standard packages per month for five consecutive months. From a letter which I received from the Canadian Bank Note Company, Ltd., dated July 6, (of which I understand you received a copy directly) I see that this will indeed be possible. Please accept this letter as my formal instructions to that effect. Shipping instructions for the notes that will be left over after assembling these packages, as well as for those produced after the middle of November, will follow as soon as possible.

Furthermore, referring to my talks with Messrs. Blackmore and Page in my office on June 28 last, I confirm that it is my understanding that the special charge of \$ 0.20 per \$ 100 declared value less \$ 50 per item, to be paid to the Canadian National Express Company, constitutes an insurance premium. This insurance, together with the cover provided by your Canadian affiliate's policies, should cover all risks, including war damage, until the cases are actually on board ship. From that moment on the insurance will be taken care of in London.

You would oblige me by making sure that my understanding of this matter is correct and that the arrangements as they stand at present do not leave open a period when certain risks are not covered.

A further point which might require a decision has not yet been discussed by me either here or at Ottawa. It concerns the receipts

C. P. R.

to be signed by the Naval Authorities at Halifax. I believe the Express Company might be instructed to apply to the same authorities as those they are used to deal with on behalf of the Bank of Canada. I shall appreciate your comment on this point.

Finally, I confirm the request I made orally to Mr. Blackmore, for thirty specimen notes of each denomination, cancelled in the customary way. Please provide me with one set as soon as possible, and cause the remaining twenty nine sets to be put up in two separate wrappings, one containing five sets and the other twenty four; all three parcels may be addressed to my office.

Dear Sir:

Referring to our conversation of yesterday's date, we beg to confirm that we have noted your instructions that the Standard Packages of notes for your Government are to be clearly marked with the letters "SP" and consecutively numbered.

In the next shipment of notes the Standard Packages will therefore all be marked and numbered consecutively from SP.301 upward, and the number of each individual package will, in future, appear consecutively on the packing lists, at the top of the last four columns on the right hand side, thus:

SP.301, SP.302, SP.303, SP.304, and so on consecutively, for each packing list, up to:

SP.1497, SP.1498, SP.1499 and SP.1500

May we ask you to be good enough to confirm if our understanding of your instructions, as set forth above, is correct.

Mr. P. J. Wood, Vice President

We acknowledge receipt of your letter of July 12th, relating to the shipment of 75 cases, containing 300 Standard Packages of notes you shipped under the above mentioned orders. With your letter we received the four copies of the packing lists you sent us, and we have noted that one copy was sent to Mr. W. van Tets.

With regard to the valuation of \$47,333.25 which you declared for express purposes, and which was the amount which would appear on the "License to Export" form, we wish to call your attention to the fact that that amount represents U.S. Dollars, but that rightly, since our selling price is in that currency, when making the declaration of the value of the shipment, it should have been converted into Canadian Dollars, or say \$52,066.58. In making this conversion we have applied the rate of 10%, and we would ask you to please declare the value for all future shipments, in Canadian Dollars, using that exchange rate, or say \$11.99 Canadian Dollars per thousand notes. This is necessary in order to keep our records clear with our customer and in line with the bills which we will have to render to the customer.

We have noted that you were unable to cover the shipment for War Damage insurance because the Canadian Government will not insure for an amount in excess of the replacement value, which value, from a telephone conversation we had with you, we understand to be your manufacturing costs. However, since these shipments are for account of the customer, they should be insured in the name of the Royal Netherlands Government. The value to be insured should therefore be the replacement value to that Government, which would be the billing value in U.S. Dollars, plus say 10%, both converted into Canadian Dollars for insurance purposes, or \$11.99 Canadian Dollars per thousand notes. In addition to that you should also include in the insurance value the amount of your shipping expenses.

With reference to this 10%, it is the practice to add this percentage to arrive at the approximate replacement value, since it is obvious that we could not replace a small quantity of notes at the same price charged for the entire order.

This matter of the value for express purposes and the War Damage insurance has been discussed by the writer with Mr. J. P. Treadwell, Jr. and with Mr. Page, and we would appreciate your covering future shipments as advised above.

Yours very truly,

Manager Foreign Department

July 21, 1943.

Please be advised that pursuant to Mr. A Philips' instructions, we have entered a change slip for the above mentioned orders covering the marking and numbering which he wishes us to show on the Standard Packages.

You will receive these instructions in the usual way through our Bronx Plant, in order to get this information to you as soon as possible, but we attach hereto a copy of the instructions we have entered on these orders.

We believe that the details will be quite clear to you, but we would like to point out that Mr. Philips particularly requests that the numbers of the cases be shown consecutively, in their corresponding columns, on the packing lists. This, of course, will have to be done on the typewriter when the lists are made out.

As 300 Standard Packages have already been shipped, receipt No. 76 will show the numbers of the packages as SP.301, SP.302, SP.303, and SP.304 at the top of the respective columns, and so on consecutively for each receipt.

The letters "SP" indicate "Standard Package". This marking is required to distinguish them from other packages we may be called upon to make up and which would not contain the standard quantity of notes.

With regard to the numbering of the cases for the second shipment, please follow the system as originally laid out; that is to say, if you are shipping 75 cases they are to be numbered consecutively 1-75-2, 2-75-2, and up to 75-75-2.

At Mr. A. Philips' request, please send us as soon as possible, ^{specimens} the balance of 29 sets of cancelled specimens called for under change slip A15549 of the above orders.

THE NETHERLANDS

Mr. Blackmore and I talked with Mr. Philips and Mr. Vanderven at this office today regarding insurance on shipments for the above. Mr. Philips informed us that he believes the British Government policy will include war risk insurance from the time it leaves our Ottawa Plant until it arrives at final destination. If he finds that this is so, it will not be necessary for us to cover war damage insurance from Ottawa until the shipments are placed on board vessel at Halifax. However, Mr. Philips will advise us definitely in the near future.
